SUMMARY OF THE DEATH IN UGANDA

An "unwanted" Finnish businessman, consultant and MP candidate was lured to Uganda with a task prepared by Patria, where he was arranged to be killed.

Isotalo's desperate cover-up attempts by denying the connection between Linden and Patria, by rolling this connection to the side of conspiracy theories after all the lies that were heard from Isotalo's mouth, would have justified an arrest warrant by someone other than the Finnish blue stupid group.

The truth about this is being covered up with the help of the media, where responsibilities are evaded with the ignorance of Patria's management and the purpose of Linden's trip, which get familiar plot twists from beautiful and brave.

THL's Sirkka Goebeler, representing the Finnish authorities, washed her hands with a paid statement and Tero Haapala of the Central Criminal Police with his own silence. It is obvious that this case is not being investigated in Finland, when our country's friend club, which runs this country, wants to bury this ordered murder as quickly as possible with a statement and a coroner's investigation by the Ugandan police. This case should be attacked by a law enforcement officer other than Finland's blue stupid group whose specialty is "village rallies" and "doughnuts".

Denigrating the victim as a drug user gives Finnish citizens easier acceptance of this person's death under unclear circumstances, and it is messing up criminal investigations of something else that went unnoticed.

The purpose of Suvi Linden's trip was to be in Uganda to make sure that "the thing works", i.e. the murder succeeds, because such circular explanations, which turn out to be lies, make no sense and the actual purpose of Linden's trip remained a complete mystery...but not to me. He has been the "perpetrator" and orderer of this murder.

Media, police and decision-makers have created a process-like way in Finland to deal with the most illegal crimes by apologizing and resigning from work, even if it is a contract murder. The editors of Yle's propaganda machine, who publish plot twists about the purposes and events of the trip, are well-known plot twists about the beautiful and brave, and to me a clear sign that these plot twists are only intended to create news, which would divert attention from the murder ordered by the state elite by tiring the readers, i.e. the people for this topic.

The way YLE's propaganda machine prefers to report inconsistent and misleading plot twists regarding this case is very popular in Finland, and the spread of this to the Ugandan media house's operating methods is extremely suspicious.

It remained a complete mystery to me what the Finnish consultant and MP candidate had done, that an imaginary business trip was arranged for him by Patria to Uganda together with Linden, where a contract killing awaited him.

Patria's CEO Olli Isotalo, who was elevated to the center of all attention and enthroned like a North Korean dictator, from where he spread lies through the media, his incomprehension of the matter and controversies up to conspiracy theories, whose public press conference was more than a week after the murder. This was a clear sign to the world and to me, what the state-owned Finnish business sector can and is capable of doing when necessary, without anyone getting caught. A murder in Uganda where there is only one nominally convicted person who runs on Patria's money in Uganda today.

New Vision journalist Charles Etukuri is also involved in the case with a very high probability, and with his own coverage, which was carefully thought out, scripted by a Finn, and misleading coverage, which would sink into the Finnish people 100%, and the Finnish people would not have any doubts about our decision-makers and the state-owned arms manufacturer.

The murder ordered in Uganda, which was investigated by the Ugandan police, was full of lies, inconsistencies and tampering with evidence, blessed with the approval of the Central Criminal Police and the biased and paid statements of THL's Sirkka Goebeler, that Uganda's non-existent, staged and completely illegitimate death investigation would get some confirming support in Finland.

PAID OPINION OF THL SIRKKA GOEBELER

<https://www.ts.fi/uutiset/3850834>.

After all the mess that the Ugandan police did, according to Sirkka Goebeler, "the research results seem real" This is a clear sign that this was a paid and biased statement where THL's expert used the credibility of the government agency to his advantage, because no one really believes Ugandan studies here in Finland if they do not receive any kind of approval from the Finnish authorities. Everything that was done in Uganda regarding this investigation is completely illegal crap here in Finland, where corruption and lies have apparently taken over our country's authorities.

The statement given by the person from THL has certainly been carefully chosen for this, because having investigated cases of medical care, questioning the word of a person from THL in Finland is extremely difficult at the moment because it is such a large state institution as THL, which also promotes modern-day witch hunts, i.e. mental health problems, like Christmas throughout the year under the leadership of Outi Linnaranta, Jaana Suvisaari and Maija Lindgren.

The best example of this corruption is the murder of Jimi Karttus, which was covered up under the post-trauma metabolic reaction.

At the moment, there is a situation in Finland where it is extremely safe to carry out the illegal actions of the authorities, because their word cannot be refuted or questioned, even if it is a case of murder, of which Tuomas Pöysti has given the best example.

I think we are drifting into a situation in Finland where it is directly possible for doctors to carry out Nazi German-style cleaning operations by killing our problem citizens, on which Tuomas Pöysti takes a hard line, denying all accusations against the authorities.

NBI Haapala remains silent

Crime Commissioner Tero Haapala told STT on Tuesday that; "National bureau of investigation does not comment on the cause of the man's death or the forensic examinations. However, Haapala stated that it takes weeks for the results of these studies to be completed in Finland."

OTHER CASES IN FINLAND

The cases inside the colored boxes have, in my opinion, a clear continuum, which can be seen as linearity in the graph. This could be a series of normal accidents in our society, but this is not the case when the cases are investigated more precisely and better than the Finnish police have ever been able to do. In any case, these cases have raised my suspicions because of the inexplicable nature of the actions, which clearly communicate something other than what the Finnish authorities, especially the stupid Finnish police, are communicating.

In all the cases inside the colored boxes, the actions of the persons are something that has not been explained except by the knowledge of the Finnish stupid group, and that it is clearly readable that the Finnish authorities have a role in the cases where it has itself been in the background pulling citizens into these cases.

the murder of jimi karttunen

Karttunen's death, which only turns more towards an intentional death, the more I research unclear cases that happened in our country, such as the unclear death of Tuomas Teräsvuori. Based on my research, I can already say that Karttunen was allowed to die on purpose, which allowed the taxpayers to get rid of a citizen who ate the decision-makers' money for free, and how the authorities were able to accuse SVL's Jesse Torniai of causing Karttunen's death, when Karttunen was allowed to die of a post-traumatic metabolic reaction, which disturbs everyone as possible in HUS.

Tuomas Pöysti, who has put his head underground like an ostrich, and imitates Aino Nykopp's cold arguments to me, only gives me more leverage to expose the activities of the Finnish authorities. This

is a clear sign from Pöyst that he does not want to start the investigation of a murder committed by reputable doctors, which was done in the name of the state's interest, which would have guaranteed the former dictator of the prosecutor's office, Raija "no mercy" Toiviainen, and his predecessor very real jobs.

HOW THE MEDIA COVERS THE TRUTH

Medialla on ihan selvät prosessimaiset toimintatavat näiden epäilyttävien tapausten kanssa, mikä tarkoittaa ihan selvästi että näissä pelataan yhdessä poliisin, viranomaisten ja päättäjien kanssa.

Ambiguities of patria's management

When investigating these cases, Patria's management had a rather motley set of different "deceptive bombs" from straight to bold and the beautiful news that could be exposed to the public through the media, which would "tire" them about this topic and new publications on this topic would no longer be of interest.

Inconsistencies were shared from one side to the other regarding the assignment and its powers. This has been a clear cover-up operation about the organized death in Uganda, which is being avoided through lack of understanding and lack of awareness.

All the information presented at the beginning regarding the trip was disputed in the media, which makes all the initial information lies and no factual information about the purpose of the trip survived this trip other than that two Finns went there, one of whom came back alive and the other dead.

Mode of operation by Leif Sevon

On the part of the authorities, we usually see strong arguments on this point, which is based on the arguments made by Leif Sevon, which would strip even Raija "no mercy" Toiviainen of his latest work desires and abilities.

"I guess the Minister of Justice can't seriously believe that his speech would lead to any results. Perhaps his considerations have only been guided by political expediency, says Sevon."

The wonder of Karttusen's death

In the case of Karttunen, an answer was sought from valvira, but in reality this is as empty as it would never admit or seriously investigate the intentional killings made by another authority. Karttusen's death was indeed wondered at, to which the doctor only stated that: "something miraculous must have happened".

Karttusen's strange death did not make any of the medical professionals open up about Karttusen's treatment methods, which were recorded in the news, which was 100% lawyer-like crooked interpretations of the law in the name of which a patient can be given "treatment" that leads to death so that doctors understand this. The Finnish police who see nothing but their own incompetence and unwillingness to do anything other than "village rally" and "donuts" in this.

The cause of Karttusen's death was sought from everything other than the authorities themselves, which, however, were all denied, saying that the authority has done as it should in these situations, i.e. by deliberately misinterpreting the laws on medical care, which is an operating model learned from Leif Sevon and a "detour" for breaking the law.

Dextran kuolema

Karttusen's death has a somewhat similar case in Dextra, where a 21-year-old young woman died of a bacterial infection. Having read a little bit of medical literature, I am surprised by these bacterial infections that can kill even a 21-year-old, who should have a pretty strong resistance against normal bacteria, although such bacteria could get into the blood stream, which in addition to the cases in Finland is rather an intentionally caused death, especially if it is a problem citizen like Jimi Karttunen was.

Henriikka Riepponen ja Päivi Kokki

Deaths like this in our country's medical care are actually quite deliberate and organized, just like the Karttusen case, which I have personal experience with, by Henriikka Riepponen and Päivi Kokki, when Kokki did not use disinfectant when he took my CRP, which gave me shivers that lasted for two days and I had a fever.

Disadvantages of reporting in Uganda

If we look at the state and manner of Finnish reporting, it is very doubtful that this reporting has spread and caught on in the Ugandan media when Teräsvuori's "STRANGE" death was being discussed there.

It would not be unreasonable to say that the Finnish media would have cooperated even more with this case, because the Ugandan media house has thus clearly adopted the inconsistency and slur bombs of the Finnish propaganda machine YLE's reporting.

In connection with the Uganda scandal, Suvi Linden has implied that she would act as a special envoy of the UN Broadband Commission.

<https://yle.fi/uutiset/3-10076175>

SUVI LINDEN LIED ABOUT HER ROLE AS UN REPRESENTATIVE

Linden no longer has an official role in the Broadband Commission, the UN's international telecommunications union ITU tells yule. ITU's spokesperson informed yule about this by e-mail.

Journalist Charles Etukuri, who investigated the death of a Finnish consultant in Uganda, was kidnapped on Tuesday in Kampala, according to Etukuri's employer New Vision magazine.

<https://yle.fi/uutiset/3-10074264>

WHO HERE IS LYING WHEN SUCH AN INCONSISTENT NEWS HAS SPREAD TO UGANDA, WHICH IS VERY NORMAL IN FINLAND, BECAUSE THE SUPPLIERS OF THE PROPAGANDA MACHINE

Reached by Yle, Uganda's security minister Henry Tumukunde admits that the journalist is no longer free. However, he denies that it was a kidnapping. But he is Ugandan and has not been kidnapped, the minister told Yle by phone.

Patria, which manufactures defense technology, has previously said that a Finnish man had received permission to market Patria's products in Uganda and Mozambique, but the actual contract for consulting services has not been concluded.

<https://yle.fi/uutiset/3-10075664>

THE FINNISH CONSULT HAD AN AGREEMENT IN BLACK AND WHITE AND A PERMISSION TO MARKET PATRIA'S EQUIPMENT.

According to HS, a Finnish consultant who died in Uganda was authorized by Patria's director to market the company's products in Africa. The letter of authorization seen by HS was signed by Markku Koivisto, who works as a manager in Patria's Land operation, which sells combat vehicles.

According to Ugandan police, the consultant had a fake invitation letter that claimed the Ugandan internal security service had invited the man to the country.

<https://www.aamulehti.fi/uutiset/art-2000007294596.html>

HOW CAN PATRIA IGNORANTLY SEND MILITARY EQUIPMENT TO UGANDA BY A PERSON WHO IS NOT EVEN A POSSIBLE TRADE PARTNER WITH A FAKE LETTER OF INVITATION?

Patria Land business manager Mika Kari says in an interview with yle that the permission was not given at the level of the management team.

<https://yle.fi/uutiset/3-10077938>

SIPRIN SENIOR RESEARCHER PIETER D. WEZEMAN IS VERY SURPRISED TO HEAR ABOUT THE FINNISH MAN'S PLANS.

"WHEN WE KNOW UGANDA'S PRACTICES RELATED TO ARMS IMPORT, COOPERATION BETWEEN THESE TWO WOULD BE SURPRISING, WEZEMAN SAYS."

When you are connected to a vague death and when questioned all the statements you made have been declared a lie in the media, in the rule of law with such lies as are distributed here you are entitled to a murder charge and immediate arrest. Linden and Isotalo are people who have to understand that in connection with such a death, you cannot make any false or misleading statements, which is a very normal behavior of the perpetrators of the crime.

The purpose of such vague reporting is nothing more than to confuse and tire the readers and citizens on the subject, that no one is on board with this eye-rolling trick by Patria, which is why the murder of Teräsvuori is turned on Uganda's head, away from its own corners.

This reporting was too transparent and controlled since the kidnapping of Etukuri, that it cannot be anything other than the result of cooperation between Yle and HS journalists. With the news, the subject was pulled away from the fact that is being twisted and covered up here, i.e. that it was an "imaginary" business trip to Uganda deliberately organized by Patria, where an ordered murder was organized for this person and no Finnish person was caught.

UGANDA MURDER

Having investigated these suspicious cases, I say that it is a murder that is certainly known to the decision-makers and top managers of Patria.

Murder of karttunen supports my claims

Karttusen's case already shows very clearly what the Finnish authorities are capable of doing on behalf of their country when necessary, when it is not about getting caught and which is protected by their own media.

Having investigated the cases in Finland, the media field has found a common factor in our democratic society, i.e. the cleaning operation of problem citizens, which is a good example in our country's psychiatric clinics.

It is clear as day that more than half of the medical care field knows that Karttunen was eliminated due to the post-trauma metabolic reaction to better pastures away from spending the elite's money.

Former rd velho management

Tommi Mannerjoki, Niko Kotsalainen, Ari Ratinen and Mika Kiljala are good examples of what can be done in the corporate world, i.e. systematic systematic actions aimed at people with the purpose of driving a person out of the company, for example by smoking them out.

Leaders capable of such action are not excluded from organizing the Ugandan murder. The actions of the managers of the former RD Velho have proved to me that something like this would certainly be expected from them, and such persons can be very common in the business world, where the rules of the wild west seem to be in effect, i.e. money or just about any reason can leave a life.

Dirty journalist Hanna Parhaniemi

With his messages, Pahaniemi has shown me what distorted human nature is capable of, i.e. sending "unwanted" persons for treatment to our country's mental hospitals, which are actually medical prison camps whose "patients" are dosed to "psychosis" Hietala's illegal medical studies. As well as where there are medicinal punishment methods in use that can be Oha's in the name of medically non-existent diseases.

If people like Parhaniemi get to nest to a greater extent with the leaders of the former RD Velho, it is clear to me that the only thing that can be expected is to send troubled youths to our country's mental hospitals or prematurely to the grave, as happened to Karttus.

The Finnish police, which is currently completely unable to investigate RD Velhomainen's silent smoking activities, or that it would focus the investigation on the actions of dirty journalists like Parhaniemi, who might be using their position of power completely wrongly, for example by driving a new witch hunt to the world in the name of mental health problems.

Uganda's death in statistics

If Uganda's death is re-examined in the statistics I have collected from reported cases, Uganda has been preceded by a close series of attention-grabbing cases in Finland where the authorities have had a hand in the game.

	Uganda murha	22	2/6/2018
	Kuopion koulusurma	23	10/1/2019

In the cases inside the red box, individuals have been subjected to unjust actions by the authorities, which have escalated into community-shaking cases, all of which involve medical care.

In two cases (Karttunen, Laapotti) there are clear signs that the medical care is systematically GETTING rid of the problem citizens of our country, whom it tries to drive into our country's mental hospitals as human rats, and if this is not successful, a natural death in medical care is arranged.

Ambiguities of Patria

Patria, in whose name the victim worked as a consultant with an unclear assignment in a country that will not even be Finland's trading partner, inevitably raises the question of whether this was an organized murder in Uganda, where the person was lured by Patria's assignment.

This kind of activity is extremely familiar to me from the side of psychiatry, where problem citizens are lured by Yle's positive advertising to come to psychiatric clinics, where their reputation is tarnished, which leads either to a premature grave or to mental hospitals as the human rats of medicine.

This ambiguity and misdirection is also extremely familiar to me from the side of psychiatry run by the friend club of Auervaara in Kerava, which is also a state-owned institution, just like Patria's.

The collaboration between Suvi Linden and Patria Isotalo amidst all the lies

This cooperation pattern, which was disputed by Isotalo and immediately followed by a conspiracy theory, is the best way to refute all objections in the media. Throwing such assumptions and conspiracy theories between yourself, that is, between Patria's management and Linden, is actually quite outrageous when you look at what this is about. Personally, I would say that Isotalo itself washed its hands of cooperation with Linden with this conspiracy theory, which in fact has been most certainly true and which is well justified by the lies told by Patria's management and Linden to the media about the purpose of the trip.

Why are Patria's management and Linden LYING to the media so much about the purpose of the trip and the assignment, if they themselves had not organized and ordered this murder.

If we look at how much Patrian Isotalo and Linden lied, why would Isotalo's statements in which he denies the common purposes of the trip be true?

<https://yle.fi/uutiset/3-10085789>

<https://www.uusisuomi.fi/uutiset/patria-harmitteli-salaliittoteoriaa-suvi-lindenilla-ja-meilla-ei-ole-yhteytta/aa05414a-fb0d-3d68-ae43-c9b5c86ed865>

a murder that was carried out as a medical death

"The Ugandan police have said that the Finnish man's cause of death was poisoning, which resulted from the combined effect of drugs and impure cocaine."

When we look at the cases in Finland, it is really difficult to find out these drug-related deaths even in Finland, which is light years ahead of Uganda in terms of medicine.

If we look at the death of my good friend, Jarno Laapot, as an example, what followed when he lost his way, lured by positive advertising, to psychiatric clinics in Ylivieska.

Laapotti's death was initially preceded by a pulmonary blood clot, after which he was prescribed marevaan, after which either a cerebral blood clot or a cerebral hemorrhage occurred. I strongly suspect that this pulmonary embolism was the systematic and systematic result of medical treatment aimed at Laapotti, which was caused intentionally with the greatest probability by means of a needle injection, as in the emergency room in Nurmijärvi by the duo couple Henriikka Riepponen and Päivi Kokki, who aimed at me.

Tällaisen toiminta ei ole mitenkään harvinaista suomessa vaan sitä tapahtuu aika yleisesti maamme ongelmakansalaisten keskuudessa.

In the case of Uganda, which always seems more like an ordered murder, in which Patria as well as our country's decision-makers are entangled, Uganda, whose corruption is the highest in the world, cannot be trusted at all in the news coverage or the death investigation conducted there, the police investigation or the trial.

Cocaine that smacks of ordered death

Cocaine in the news is only tarnishing the reputation of Finns in the eyes of the people, making it easier for them to accept the death of a Finnish man. There is a big question mark as to whether this cocaine was actually part of the Finnish man's "menu" or whether it was included in the investigation by the Ugandan police only as a stage, because if you look at the confusion of this case, which in all its inexplicability is an ordered death, the exclusion of cocaine for the purpose of smearing the background of the Finnish man cannot be ruled out, which also is in very common use in Finnish

psychiatry when they inject new-age conversion drugs to our problem citizens only to blackmail them as having mental health problems, for which the disease must be fed with harsh chemical compounds.
<https://www.aamulehti.fi/uutiset/art-2000007600186.html>

If this case is compared to the murder of Jimi Karttunen at HUS, which was carried out by intentionally disrupting the post-traumatic metabolic reaction and in connection with which everything was distributed, from drugs to illegal medicinal substances, which are, however, the hospital's own chemical compounds that it feeds to some of its patients in the name of forced treatment, the drug is also connected to Teräsvuori's death with a high probability of only messing up the criminal investigation, so that no other chemical compound would possibly be found in connection with the murder of Teräsvuori or the real cause of death would be seen.

The police have a high threshold to stop the investigation when they find the first clear reference, in this case cocaine, in which case they stop the investigation, even if the Teräsvuori case needs more, in my opinion.

THE ROLE OF THE NBI IN THE UGANDA CASE

Even though Linden was interrogated by Ari Soronen, the hero police officer of the Central Criminal Police, his task to solve the Ugandan mystery is a completely impossible task because Linden would certainly not admit anything and would turn out to be at least a stonewalling denier like Jari Aarnio. This interview was mostly formal, and it will not lead to anything, it will only give more confirmation about the undetectability of criminal activities.

<https://www.aamulehti.fi/uutiset/art-2000007600186.html>

Everything that comes from the Ugandan side to investigate Teräsvuori's death is as empty as Olli Isotalo and Suvi Linde's statements, which all turned out to be lies, is most obviously the same as the criminal investigation by the Ugandan police.

To Finland's blue stupid group, such greetings from criminal investigator Hannula, that everything that was done on the Ugandan side in the name of the police, the death investigation and justice is completely illegitimate crap here in Finland, because Uganda is almost the most corrupt country on earth...but I think this was known by Patria's leadership when they sent Teräsvuori to trade own "guns" to Uganda, where ordered death awaited.

The person who was sentenced for the murder of Teräsvuori is probably already free and roaming the streets of Uganda with Patria's money, and this is the kind of corruption of the highest order, just like the fact that no one in Finland got caught in this even though lies were spread about the purpose of their own trips, so that your ears wobble.

police operation in the country in general

Finland's blue stupid group, which is most obviously trained by THL only to recognize problem citizens of our country as criminals, should be retrained to recognize extremely planned and lawyer-level

crimes organized by people like Linden and Isotalo, which collide with the criminal law in the worst possible way.

It is completely clear to me that if an ex-minister is in such unclear circumstances, where a representative of a state-owned company that makes war machines dies in obscure circumstances, in UGANDA, my God, the training of our country's new police officers includes nothing but the problem of identifying citizens and dragging them into the path of crimes in the name of a police covert operation, which finally, these citizens led to crimes are arrested. Police who should be retrained to recognize crimes committed by decision-makers, which include ethnic cleansing, the target of which is our problem citizens, which is implemented with the help of medical treatment.

I will still offer Aarnio coffee when he proved by his own actions that the Finnish authorities are nothing more than ordinary people who commit crimes It would seem that the police can only be mobilized in Finland with unnecessarily dated and fake news such as the case of Wille Rydman's harassment.

<https://www.mtvuutiset.fi/artikkeli/wille-rydman-faktat-ovat-puolellani/8470322>

It is completely clear that our country's police, prosecutors and judiciary are completely on their knees when the order for the murder is an ex-minister and some of Patria's top management.

The Finnish police, who target the most problematic group in our country, who are drugged by psychiatry, with covert operations, are lured and dragged into the mass murder project in Helsinki in the name of the police covert operation. 20-year-old brats who are the blue fool on the group's menu, where there is enough food for many authorities in the name of imaginary honor.

the prosecutor's office that keeps its eyes closed

Raija Toiviainen and her followers should order covert operations targeted at Patria and the decision-makers, who are willing to pay for an organized death in the name of a foreign command for which there is already one body.

Toiviainen, who only listens to the words of his fellow parliamentarians from the 21st century, is not at all interested in Teräsvuori's obscure death in Uganda, where Patria sent him to sell his own "guns", which is not and will not even be a possible trading partner. A case where every person who made public statements on Patria's side, including Suvi Linden, lied

Raija Toiviainen of the Prosecutor's Office

Toiviainen, who in our country is given North Korean justice awards as his own, in my eyes, it is nothing more than handing out bribes because he is peddling Räsänen's 20-year-old statements that cannot be a crime, at the same time that the "big boys" are carrying out a cleanup operation on the corporate side through Patria and problem citizens half through psychiatry.

interior ministers during the patria scandal

In the middle of Patria's uproar was the change of interior minister from Paula Risiko to Kai Mykkä. It is difficult to say whether this was just a coincidence in connection with the Patria scandal and how this opportunity was used to evade responsibility at the legal level, which has become an almost normal activity in our country, which means ALWAYS covering up illegalities at the official level, of which there are already many examples from the psychiatry side.

https://fi.wikipedia.org/wiki/Luettelo_ministereist%C3%A4_Suomen_sis%C3%A4ministeri%C3%B6ss%C3%A4

EVENTS ON THE UGANDA SIDE

The investigations that started in Uganda about the murder of a Finnish man were indeed large in scale, and the following were arrested: Uganda Security Service Officer Apollo Kyabagye.

corruption in uganda

According to Aliganyira, the police investigation into the case has been full of holes and the Finnish man's movements shown in the hotel's surveillance camera image have been tampered with..

- A network had been exposed in which one's official position was exploited in criminal activities, such as murders, armed robberies, extortion and kidnappings, Reuss wrote in November.

<https://www.is.fi/ulkomaat/art-2000005598692.html>

The Ugandan Case, which is full of lies, misrepresentations and baseless statements, at least Reuss's sentence seems to be true, that it is possible to order murders in this country and its perpetrators are very high in the administration, just like in Finland, because the main suspects in the murder of Tuomas Teräsvuori can be found in Suvi Linden and Patria at the time about CEO Olli Isotalo.

This duo pair is the main suspect in the murder of Teräsvuori, when he was lured to Uganda, where this kind of murders are completely possible due to the country's corruption, where Finland has risen to threaten this place.

The actions of our country's decision-makers together with the police were so anemic regarding this case that they didn't even want to investigate it, because the case would have led to Patria Isotalo and Linden, which, however, are quite high in the hierarchy of our country.

Charles Etukuri, who spoke to me about YLE's propaganda machine, which I was already very familiar with, from car rides in hooded tops and pubic bombs to power struggles, etc., where I could swear my career as a crime journalist that YLE's propaganda machine journalists have been close by, sniping and scripting Etukuri's statements, which the Finnish people absorbed without questioning or questioning any fraud in Uganda, which is the most corrupt country in the world.

<https://www.is.fi/ulkomaat/art-2000005599915.html>

solving the death in uganda

I personally find it extremely difficult to solve this kind of death for any Ugandan police, who are not necessarily capable of better performance than our country's police. In Uganda, police investigations are certainly much more influenced by outside interference, and the breaking of official chains during investigations is certainly very common.

Secondly, I do not trust the Ugandan police at all and their toxic investigations in a country that is a developing country. Making these results is the same as if they were made by me, although what I do is strongly guided by finding out the truth, when the Ugandan police may very well have strict instructions from their own country to drag out this investigation so that no one from Finland would appear on the list of suspects, because Finland would seem to be a good partner in some way.

In the news, you can read how the hero police officer Ari Soronen of the Central Criminal Police was kept away from this investigation, and the Finnish police did not participate in the investigations on the Ugandan side, but they were carried out in a completely biased manner, which guarantees that the culprits will not be found on the Finnish side.

The death of Patria's consultant, which happened under such unclear circumstances, and all the lies in the news do not speak of anything other than an arranged death, the recognition of which can certainly be sought as desperately as in the case of Jari Aarnio.

trial in uganda

The trial was what was expected from this country, the accused of murder freed, some on bail. "According to Judge Margaret Mutonyi, there was no direct evidence of the murder, but the details of the case strongly link the accused to the murder." It is quite clear from the judge's statement that he will release the last "suspect of murder" when the uproar in the media in Finland subsides and the woman gets to the streets of Uganda to bathe in Patria's money.

<https://www.mtvuutiset.fi/artikkeli/lehti-ugandalaisnainen-tuomittiin-30-vuodeksi-vankilaan-suomalaismiehen-murhasta/8470816>

<https://yle.fi/uutiset/3-10151378>

MOTIVES FOR DEATH IN UGANDA

It is clear as day that this person who died in Uganda was not and will not be lured to psychiatric clinics to be smeared and pave the way to a prison mental hospital or an arranged death in our country's medical care. It is hard for me to guess what a person could have done that Patria organized a "business trip" for him to Uganda, which was his last. In the light of Finnish state statistics and other unclear cases in our country, I declare this case to be a murder that is known to the decision-makers and organized by them.

mistake in a corporate world

A business world that can be very brutal today, a good example of which is precisely the trip organized by Patria, the purpose of which was nothing other than the murder of Teräsvoori, which is of course covered up with the most incredible explanations, lies and nominal firings.

Sanna Sillanpää

Sanna Sillanpää's case where there are clear indications of a mistake in the business world or at the university level, which is partly the same thing. Sillanpää who may have stepped on the toes of an influential Nokia executive, which led to his being staged.

Sillanpää who was targeted for isolation from the workplace and, most likely, inconsistent work tasks and unfair actions of the supervisor, which with each one forces the victims to turn to their lack of understanding and seek help for their bad situation from psychiatry in the form of therapy. This same operating model can be seen with Aino Nyköppi, who also drifted as a result of the unfair actions of HUS supervisors into therapy where the reputation of these persons is smeared with an eye on the upcoming trial and psychiatric drugs that reduce brain functions are offered, which are the background of all the school killings in Finland.

INDECENT LIFE #metoo

It is also good to look for the right motive in the chases that are currently going on in the media, and one that I highly doubt is the #metoo movement. The use of paid women is not necessarily a very rare thing and this may arouse a lot of anger during #metoo.

There are many examples in the world of how these people caught in the eye of #metoo are driven out of work. This topic is extremely diverse and its operation is almost similar to mental health problems, in the name of which neurologically healthy citizens of our country are driven to mental hospitals in the name of an imaginary "disease" bypassing the courts.

These so-called cases of harassment, which are nevertheless harassment, have received chases and convictions comparable to rape in the media. There are examples of these #metoo manhunts in the Finnish media as well, which I strongly suspect are only organized, where unknown women are accusing someone in the media of something.

<https://www.mtvuutiset.fi/artikkeli/wille-rydman-faktat-ovat-puolellani/8470322>

The dead Finnish man had some kind of "game" with a woman convicted of murder, according to the news, which is good evidence of extramarital relationships that could very well lead to murder during #metoo because of some extremely bitter women, for example. #metoo is an idea that has gathered witch hunts and its power should not be underestimated when you look at its activity in the media. It is clear as day that under this theme innocent people have been convicted, at least in the media.

Suvi Linden, who was on the trip, was not there for "fun", in my opinion. His plot twists about the purpose of the trip are a clear sign that he was more involved in watching and making sure that the Finn gets cold as it was planned. There are already many examples from the authorities in Finland, how the way our country's problem citizens live in our country is the most extreme sin and they are driven into our country's mental hospital business with the help of provocation and the unjust actions of the authorities, where their social contribution is taken by force with the help of medicine, or alternatively, a "natural death" is arranged in our country's medical care, as happened to Karttunen.

It would hardly have been possible to organize the murder of the salesman in Finland, because hiding the murder of the father of two children would have been much more difficult than the murder of Jimi Karttunen, who was smeared with drugs.

Harassment by Wille Rydman

So Rydman is accused of "harassing" behavior. On these grounds, it would seem that the stupid Finnish group could get started with a pretty good probability, but this is extremely dangerous because all that is needed under such accusations is a group of a few bitter women who have been offended by, say, the witch hunts of the inventor era, etc. If I look at these #metoo campaigners with the help of Minna Pass' abilities, then why are these cases brought to the media with such magnitude even though no one has even been convicted of anything and the previous Rydman case was already dropped in 2020.

If we look at the actions of the Finnish police with Rydman and Teräsvuori, then Teräsvuori, where a person has died by murder and where Patria's management and our country's ministers are involved, the police is in a completely passive state, but bets are placed on Rydman's ridiculous commotion, which practically can't even come of anything if Rydman is not raped anyone.

<https://www.mtvuutiset.fi/artikkeli/wille-rydman-faktat-ovat-puolellani/8470322>

Patria's arms sales to uganda

If you look at what is happening in Finland in our healthcare and in the police, which ran the largest drug trade in the Nordic countries by barrel trading, who is to say that Patria does not sell military equipment to, for example, Uganda? Why was Teräsvuori going to sell Patria's military equipment to Uganda if they are not sold there? Patria's Olli Isotalo and Suvi Linden, who lied as much as Jari Aarnio and Aino Nykopp, do not trust the statements of these criminals at all.

Sending such an alibi as Teräsvuori to Uganda to sell Patria's weapons, which are disputed in connection with Teräsvuori's murder, is the best alibi to sell weapons to Uganda after this, because no one would take it up in the media anymore because a Patria consultant died there. After this scandal, doing business with Uganda would be the best thing to do, and Teräsvuori's false assignment in Uganda and his death would serve as the best alibi.

There are already many similar unclear cases of this kind of activity on the part of the authorities in our medical care, where problem citizens are staged with imaginary diseases and killed by natural deaths. For the Finnish state authorities, this kind of shadowy action would be a very normal way of acting, which is based on other cases that I have investigated in Finland, which means stagings in the background of which the Finnish authorities are influencing the cases with their own actions, from which the outcome they want is formed.

It would not be acceptable for Finland as a state and for Patria to sell weapons to Uganda, where another alibi in the media was the assumption that the same weapons can be obtained cheaper from Russia. Sauli Niinistö, who has spent time secretly from his wife on Putin's love ship, this kind of reporting amidst all the lies leaves one wondering if this is also a lie and the truth is that weapons are sold to Uganda where the best friend is being used, in whose name the people are being misled to protect their own illegal businesses.

<https://yle.fi/uutiset/3-10075201>

Money, which is such an obsession for Finnish decision-makers and authorities, that in its name, problem citizens are killed in HUS to prevent them from spending the state elite's money unjustifiably, and some are staged in a prison mental hospital with medically non-existent diseases for the use of researchers at the University of Turku as human rats, for which these imaginary diseases are as if created on the medical side. Money and margins, in front of which the Finnish police trash their own values and their entire basic being, i.e. law enforcement and, if necessary, run a drug trade from the police base if they can get money from it.

Sauli Niinistö, who, inspired by his predecessor, abandoned the white Aryan super race and replaced it with a super state that worships money like the white race, has harnessed the problem citizens of our country into human rats because of all the innocent bystander victims that these problem citizens have taken with them when they have tried to aggressively defend themselves against this official corruption built by Niinistö which has taken away all the services from our country, such as the basic income support of Kela and the possibility of employment if necessary, even with taxpayers' money.

Sauli Niinistö's Finland, which is known for its human rat business, would be quite natural for it to sell Patria's guns to Uganda for profit, no matter if they kill innocent citizens, which certainly does not move the blue president of our country, Sauli Niinistö, who runs the world's most illegal human trafficking with a friend club at the University of Turku on the medical side.

PERPETRATORS OF THE UGANDA MURDER

Suvi Linden

Linden's explanations make it more clear that he had some role in this murder, maybe even in its preparation and organization, and why he was in Uganda to make sure that "it works". It is certainly pointless to expect recognition from Linden, which would end his wonderful life on the prosperous and free side and give him a taste of the conditions of human rats in our country, however, in an institution where imaginary diseases cannot be staged. This recognition is certainly not expected from the Finnish authorities or decision-makers if you look at Jari Aarnio's trial.

Linden, who was in Uganda to ensure the success of the ordered work, which makes him the "perpetrator" of this operation and the main suspect. The fact that Linden was in Uganda and making sure that Teräsvuori dies clearly points to a personal nature, just like many murders, because such projects are not organized just for anyone who gets hurt and who should be investigated by the blue stupid group.

Patria CEO Olli Isotalo

It's clear to me that Isotalo didn't know about this "gig" and it can be seen even more from the news coverage and how he is not aware of the company's operating methods and the sending of Teräsvuori to Uganda, which, however, is later found in black and white in the form of a contract. With all this incoherent activity and reporting that is full of lies, there is no credence in Isotalo's statement that Linden has nothing to do with Patria. Based on previous lies, Isotalo is lying about this as well and Linden was the main player in this ordered murder, which was carried out in cooperation with Patria's management and which Isotalo tries to deny in every possible way by adding the immunity of immunity, i.e. the normal corruption of the conspiracy theory, which, however, statistically speaking from Isotalo's mouth, is a complete LIE.

Olli Isotalo, who, as the former CEO of Patria, has replaced Aino Nykoppinen as a stone-walled debater, and in Aarnio's lying, has set new foundations in terms of controversies and lies when he pours the hot pot of conspiracy theory on Linden's and Patria's cooperation patterns from the duo's joint travels, that if any line reporter tries to open this treasure chest of secrets buried in the media, he would only burn his own keys.

Isotalo and Linden, who trusted too much that Minna Passi's journalistic talents could be shackled to SUPO's friend club cage to publish only information dictated by SUPO, have now been released from their shackles and harnessed again towards official corruption, and there are no conspiracy theories promulgated by Isotalo to hold them back.

Passi's journalistic abilities, which eats conspiracy theories like breakfast and arouses cold shivers in the "village rallies" of the blue stupid group, is certainly something that Isotalo did not take into account when booking the Ugandan gig at Teräsvuori, and the following explanations compiled by Isotalo are published in alibi together with Aarnio.

Isotalo, which finally scrolls the connection from Linden to the side of conspiracy theories, is a clear sign for me that this connection is protected so strongly that conspiracy theories must be included in the news. These conspiracy theories started by the accused are the clearest sign that then we are actually on the right track.

It's easy for Isotalo to talk about these things coldly because he knows the fact, as do I, that Finland's blue stupid group is completely of this group, which leads Finland on a pretty tightrope and it has no business taking cases forward even if it's a murder.

Based on my research, I say that Isotalo knows who is really behind this murder, but he won't admit it

Resigned managers to take responsibility for the act

Rule of law in Finland, where sending an employee to Uganda to be murdered can be solved by resigning. This is an extremely cheap price for murdering a person. Juha Simola and Mika Kari are most obviously complicit in the murder of Teräsvoori and this should be thoroughly investigated, but I don't know who would do it because the Central Criminal Police as a unit under the Ministry of the Interior has completely washed their hands of this mess.

Media that is creating a model of accountability in the people, which means resignation from office. In my opinion, this is an escape from murder charges rather than taking responsibility that would be achievable in prison.

<https://www.verkkouutiset.fi/a/hs-patria-johtajat-eroavat-uganda-kohun-vuoksi/#16ef07f6>

This is extremely unfair to our problem citizens, who have to go to prison and part of the mental hospital for the unfulfilled plans they have been dragged into with the help of a police covert operation, while Patria's group and Suvi Linden are allowed to continue their perfect lives on the free side.

This would really be the domain of Raija Toiviainen, but who has teamed up with our decision-makers, which means a completely free field for them to carry out even the murders of individuals if necessary on the endless orders of the state-owned arms manufacturer Patria.

A hopeful person who seemed to be only interested in Räsänen's words on television 20 years ago, when at the same time our country's decision-makers are getting rid of "unwanted employees" in the worst possible way.

Mika Lintilä

Lintilä is certainly as aware of the murder as Isotalo and Linden are

RATKEAAKO UGANDAN MYSTEERI SINISEN TYHMÄ RYHMÄN AVULLA

Suomen poliisi joka on saavuttanut absoluuttisen nollapisteen eli ettei se saa enään kiinni edes polkupyörävarkaista vaan ainoastaan psykiatrian annostelema huumattuja potilaitaan jotka ovat alle 20-vuotiaita ja ilman koulutusta on sanomattakin selvää ettei suomen poliisille voida enään antaa muuta kuin donitseja suuhun ja piipaa autoa kyläralleihin.

Suomen poliisi ei tule koskaan selittämään tätä tapausta. Tosin en voisi sitä edes itse luvata koska kuka näitä tapauksia voisi selvittää suomesta käsin. Tähän tarvittaisiin tunnustus mutta kuka sen haluaisia tehdä? Jos katsoo tapaus Aarniota niin viranomaisen on samanlainen kiviseinäkiistäjä kuin Aino Nykopp joten tunnustuksia on turha odotella.

Vaikka Lindeniä kuulusteli sankaripoliisi Ari Soronen, on päivänselvää ettei Linden puhu mitään poliisille. Vaikka Lindeniä kuulusteli sankaripoliisi Ari Soronen, se ei merkitse mitään koska Linden ei puhu eikä se muista yms. Olen varma että sankaripoliisi on haistanut tässä selvän murhan mutta mitä teet entiselle ministerille jolla on kaverikerho päättävissä asemissa? Kehtaisitko sanoa poikkisanaa tähän juttuun "entistä" työnantajaa vastaan?

Suomen poliisin toiminta tämän tapauksen kanssa oli kuitenkin tosi aneemista ja passiivista uutisointia sankaripoliisista huolimatta eikä se lähde tutkimaan näitä tapauksia lähellekkään samalla "raivolla" kuin Eveliina Lappalaisen murhaa.

<https://www.linkedin.com/pulse/murder-lappalainen-so-shocking-devastating-finns-broke-raine-hannula>

Tämä toiminta on jo valitettavasti minulle täysin tuttua minulle kun poliisin pitäisi tutkia maamme päättäjiä taikka toista viranomaista.

UGANDASSA KUOLLUT SUOMALAINEN LIIKEMIES UUTISOINTI

Ugandan mystinen kuolema

23.2.2018

<https://www.aamulehti.fi/uutiset/art-2000007294596.html>

Mitä Ugandassa kuolleen suomalaismiehen tapauksesta tiedetään nyt?

14.2.2018

<https://yle.fi/uutiset/3-10075664>

Kutsukirjeen väärentäjästä ei ole tietoa, mutta Ugandan turvallisuusviranomaiset uskovat miehen joutuneen huijauksen kohteeksi.

Puolustusteknologiaa valmistava Patria on aiemmin kertonut, että suomalainen mies oli saanut luvan markkinoida Patrian tuotteita Ugandassa ja Mosambikissa, mutta varsinaista sopimusta konsulttipalveluista ei oltu tehty.

Ugandan turvallisuusministeri Henry Tumukunde kertoi Ylelle keskiviikkona, että kaikki miehen kuolemaa koskevat tutkimukset ovat kesken. Esimerkiksi toksikologinen tutkimus on vielä vaiheessa, eikä kuolinsyytä siis voida vahvistaa.

Suomen keskusrikospoliisi ei toistaiseksi osallistu tapauksen tutkintaan.

Suomalaisen liikemiehen kuolemaa Ugandassa tutkitaan murhana

15.2.2018

<https://yle.fi/uutiset/3-10077302>

Ugandalaisnainen tuomittiin 30 vuodeksi vankilaan suomalaismiehen murhasta

<https://www.mtvuutiset.fi/artikkeli/lehti-ugandalaisnainen-tuomittiin-30-vuodeksi-vankilaan-suomalaismiehen-murhasta/8470816>

Suoria todisteita murhasta ei ollut

16.7.2018

<https://yle.fi/uutiset/3-12539613>

Tuomion antaneen tuomari Margaret Mutonyin mukaan suoria todisteita siitä, että syytetty nainen olisi murhannut suomalaisliikemiehen, ei ollut.

Tapauksen yksityiskohdat kuitenkin liittävät syytetyn murhaan hyvin vahvasti, hän sanoi New Vision - sanomalehden mukaan.

Tämänkin perusteella murhasta syytetty nainen on mitä ilmeisemmin laskettu vapaaksi pyörimään Patrian rahoissa kun uutisointi laantuu suomessa ja tapaus on unohdettu suomessa.

Ugandassa oikeus päästi suomalaisliikemiehen taposta syytetyt vapaaksi takuita vastaan

<https://yle.fi/uutiset/3-10151378>

Buganda Roadin oikeustalolla neljän syytetyn takuusummaksi päätettiin kunkin osalta 10 miljoonaa Ugandan shillinkiä eli noin 2 700 euroa.

Halvaksi tuli suomalaisen tilattu kuolema Ugandassa. Tämä tulee varmasti olemaan päätös myös murhasta syytetyille naiselle kun uutisointi laantuu suomessa jonka jälkeen nainen pääsee kylpemään Patrian rahoissa kun suostui tähän murhanäytelmään mistä kukaan ei jää kiinni.

Lintilä sai odotetun Uganda-selvityksen Patrialta

15.2.2018

<https://yle.fi/uutiset/3-10077019>

Suvi Lindén valehteli roolistaan YK-lähettiläänä: Mitä ex-ministeri teki umpikorruptoituneessa Ugandassa?
