STEALING FROM STATE TAXPAYERS ..... 8

In 2010, Marin wrote an article that clearly explains what the spirit of the game is in Finnish politics. Marin's text resonates a bit with me when he has questioned the pharmaceutical industry and its operation, which has more obviously been fishing for votes and the Lumia of past winters about what Marin represents in 2023.

*"Vaccine manufacturers received a 100 million euro thicker wallet from Finland alone for vaccines that have little evidence of their effectiveness on the quality and state of health. Fear and threat have always been effective marketing tools, and under the guise of these, it is easy to sell a piece of security to the people. What is really going on in the leadership of the state when Marin, who has clearly done Donald Trumps and turned his coat more than twice when he previously told how there is little evidence of the effect of the pharmaceutical industry's vaccines on health and condition, and how a frightened people can be sold almost anything and they will buy it without nothing to question.

## Corona vaccine

Corona as a whole was thus in retrospect more of a transfer of power over medical care, in connection with which the reaction of the people, or mainly the journalists and professionals among them, was tested to the test of this double harness, medical care and those in power, how much the people can be restricted and imposed sanctions only by a nominal pandemic and a news duck raised to the second power in the media headlines with.

Corona Deaths that are at least well-statisticed by the Finnish authorities, which are however very questionable because the largest drug trade in Europe has been run from the headquarters of the Finnish police.

## Jarmo Hietala ja Walta Maija Helena university of turku

It's really a shame that I'm not a doctor who could put hard evidence on the table about the corona, but if you look at the activities of all the institutions of the Finnish authorities in the overall picture, i.e.:

- drug trade led by the Finnish police
- the operation of medical psychiatry, which stages its patients, with the help of cooperation with the authorities, to the human rat farms run by the University of Turku for illegal medical studies by the team of Jarmo Hietala and Walta Maija Helena, where this "couple" studies the effect of various chemical compounds on the brains of these staged problem citizens at the cellular level, speculates on the mechanisms of emergence of a medically non-existent and imaginary disease, and refutes previous guesses .
- He murders his disadvantaged citizens (Jimi Karttunen)

## **Sauli Niinistö**

Finland's most famous human rat is definitely Sanna Sillanpää, who in my criminal investigations has stepped on the toes of Nokia's influential leaders, who have had good connections with our country's decision-makers, such as the white king of the coalition, Sauli Niinistö, who has sprinkled so many corpses in his political career that they cannot be covered up by any fake news from YLE's propaganda machine.

<https://www.finnishcrimereporter.com/sanna-sillanpää>

Sillanpää whose case follows all too identically the cases of our country's problem citizens, where they are driven to psychiatric clinics by burdening their lives, where these clinics are advertised like Christmas throughout the year in YLE's propaganda machinery, where these future human rats of the University of Turku are promised a new life with a handful of friends, but the truth is completely different. These future human rats are fed such harsh chemical compounds that some decide to kill themselves with Sophie Scholl-like heroism, while some unfortunately end up killing an innocent girl on the basketball court, for which of course you can't blame the perpetrator, when you look at what the Finnish authorities are doing in the background of these citizens.

<https://www.finnishcrimereporter.com/murder-of-emilia-nieminen>

However, not all the enemies of the white king of the coalition can be murdered in medical clinics like Jimi Karttus.

<https://www.finnishcrimereporter.com/murder-of-jimi-karttunen>

Or to lure psychiatric clinics into a reputational blackmail, which leads to illegal medical examinations of Jarmo Hietala and Walta Maija Helena on human rat farms managed by the University of Turku, as happened to Sanna Sillanpää and Jouni Kauppila.

<https://www.finnishcrimereporter.com/ylivieska-church-burn>

Tuomas Teräsvuori, the family member of the coalition, who had to lure Jutta Urpilainen to Uganda under the misleading mandate of the arms manufacturer Patria, because it would have been difficult to pressure him into psychiatric clinics or to murder him in hospital under the guise of an intentional accident.

## **Hasse Karlsson university of turku**

Hasse "who is not interested in power" Karlsson from the University of Turku, who has made it his life's mission to introduce Europe's new plague, the black death of problem citizens, the double agent who defected to the Kremlin's tables, and the white king of the coalition's ethnic cleansing in the minds of the people and thereby among the problem citizens of our country. Hasse "who is not interested in power" is carrying out this national cleansing of the white king of the coalition by transferring the physiological diseases of cancer to those suffering from the autumn depression of our country with deliberate misinterpretations of statistics, where he uses a sample of our society to help him, which consists of problem citizens staged in mental hospitals, who in those institutions can get sick with practically any disease, medical or imaginary.

<https://www.finnishcrimereporter.com/hasse-karlsson>

In addition, Hasse "who is not interested in power" in this ruthless plan uses cancer patients who actually have a medically proven disease, such as cancer whose side depression is advertised through YLE's propaganda machine with the help of Jan Boijer-Spoof, misleadingly how ketamine is fed to this "depression" where Boijer-Spoof's cancer is misleadingly kept hidden and let's just talk about treating depression. This kind of advertising has no other purpose than to feed the problem citizens of our country who suffer from autumn depression with drugs used in the treatment of cancer, where they actually die and not from autumn depression.

<https://www.finnishcrimereporter.com/yle-news>

The fact that how can the physiological diseases of cancer be transferred to those suffering from autumn depression, because it is Hasse's "who is not in control" ruthless plans about the wishes of Sauli Niinistö, the white king of the coalition. I went to Nurmijärvi's emergency room because I have had muscle cramps and during this visit Päivi Kokki took my CRP, in which she did not use disinfectant. Although I pointed this out to Päivi, she performed the CRP without a disinfectant and I got a virus/bacterial infection lasting two days, during which I got cold and hot shivers all over my body.

<https://www.finnishcrimereporter.com/henriikka-riepponen>

This autumn depression of Hasse "who is not interested in power" is sold to the public as strongly as hidden lives by the power of an actress who has with a very high probability died of a medically proven disease, of which I highly suspect cancer of which many people die very young like Janita Lukkarinen or Jade Goody. This coverage of Jasmin Voutilainen's death will fall on the necks of the underprivileged, whom I am defending, as their deaths, just like Voutilainen's, but with the difference that the underprivileged are not killed by mother nature, but by the nurses and doctors of the Finnish medical care, who have already practiced this with Jimi Karttunen, who was murdered in the HUS hospital district medically like a rabble dog by disrupting the post-trauma metabolic reaction by pumping Karttunen full of drug antibodies

<https://www.iltalehti.fi/viihdeuutiset/a/fcd82136-4aa4-4ab9-b3f0-786d57a63a51>

<https://www.finnishcrimereporter.com/murder-of-jimi-karttunen>

Apparently, with such deliberate actions by the medical staff, these autumn depression sufferers fall ill with these physiological diseases of cancer when they are deliberately caused bacterial and viral infections in connection with needle injections. Another alternative, of course, is that the ideological descendants of Hasse "who doesn't care about power" feed these problem citizens drugs used in the treatment of cancer to make them depressed on an autumn day. In Finland, of course, an alarming number of citizens die in hospital treatment from these bacterial infections, some of which are intentionally caused accidents that do not result in judgments in the courts anointed by the new plague of Europe, the black death of problem citizens and the white king of the coalition, Sauli Niinistö.

<https://yle.fi/a/3-5513743>

<https://yle.fi/a/3-11818097>

If it continues for a long time, this kind of activity will of course become a normal activity where the disadvantaged will simply die if they are not productive citizens to Europe's new plague, the black death of problem citizens and the white king of the coalition.

### **Back to corona**

Based on the above cases, it is quite presumptive to say that Corona is nothing like a seasonal flu caused by fake news in the media, which has been painted as a big plague, the Deaths caused by which are only deliberate misinterpretations of Hasse "that power does not care" combined with Leif Sevon-like interpretations of the law, in front of which even night can be seen as day. In the name of these misinterpretations, even Jasmin Voutilainen's death has been blamed for depression, at least in the media. Deaths like this, such as the death of the Voutilas, cause a statistical error in our country if cancer is completely buried in connection with it and the case is buried in the thorn of depression.

It is a big question mark how many deliberate murders like Jimi Karttunen's or intentionally caused bacterial infections like Henriikka Riepponen's and Päivi Kok's in connection with needle injection have been buried among these corona deaths, which would seem to be a secondary function of Finnish medical care, that is, from the state's point of view, to eliminate problem citizens from the state's lists.

### **CORONA: Intimidation of the people under self-inflicted distress**

*"Vaccine manufacturers received a 100 million euro thicker wallet from Finland alone for vaccines that have little evidence of their effectiveness on the quality and state of health. Fear and threat have always been effective marketing tools, and under the guise of these, it is easy to sell a piece of security to the people. When mass hysteria has reached its pain point, reason or facts no longer have a place in public discussion"*

- Sanna Marin -

<https://koronarealistit.com/sanna-marin-rahamikas-laaketeollisuus/>

If you look at Marin's statement from 10 years ago, he has turned his coat like Donald Trump, when he believes the witch doctors of THL like the medieval church about a disease that in retrospect was no better than the seasonal flu, but which was made an even bigger mess in the media, which was used to accustom the people to pro-vaccine in a self-inflicted crisis, in the face of sanctions and intimidation, what is being lobbied by Jessikka Aro, the own child of YLE's propaganda machine, among a nation in the middle of a crisis, which is almost in a state of panic, which is surely what Aro is paid for, namely by lobbying state propaganda on social media for the public's eyes.

Kiitos Suomen koronapäättäjät ja -viranomaiset, meidän lapsen hoitaja on koronassa. Voisitteko antaa luvan soteammattilaisille ja muille halukkaille ottaa se nelosrokote?

Terveisiä myös USA:sta. Kerroin siellä että täällä pihdataan rokotteita. Paikallisen kommentti "that's crazy"

Suomen sote-henkilöstö ei ole saanut 4. Covid-rokotetta vaikka epidemia jyllää ja rokotussuoja on vanhentunut - ja vaikka EU-viranomaiset suosittelevat.

Juuri niin!

## UKRAINE WAR SUPPORT PACKAGES

Finland, which sent aid packages that should help the Ukrainians, is a very questionable action by the state, which takes away basic state income support from the poor in Finland with the most unbelievable explanations, targets compulsory medical care laws from the state's point of view, to problem citizens who are locked in state-closed facilities, in violation of all human rights, where they are fed harsh chemical compounds of medically non-existent and imaginary in the name of diseases, and the spouses who came to save them are dragged to the courts owned by Sauli Niinistö to hear unjust sentences similar to Nazi Germany.

Sauli Niinistö's courts, which send our country's problem citizens to the illegal medical studies of Turku University researchers Jarmo Hietala and Walta Maija Helena, with which they study the reaction of these patients' brains to various chemical compounds at the cellular level, guess the mechanisms of occurrence of a medically non-existent and imaginary disease, and overturn previous guesses.

## **STEALING FROM STATE TAXPAYERS**

This action by Marin, based on his previous statements and how he and his parliament close circle share tax money for corona vaccines, the effectiveness of which is very difficult to prove when it has been more like a seasonal flu-like virus, which the propaganda machine made a big deal about to scare the people, limit them, make them more pro-vaccine, and distribute money and power to the medical side as much as possible and which is being raised into an institution even bigger than the medieval church.

Finnish medical care has been driven by companies offering private medical services whose purpose is nothing more than to make money from the elderly by feeding them new products from the pharmaceutical industry that will take them faster to the grave and out of the state pension pipe, which pours all of it into Europe's new plague and the coalition's white king Sauli Niinistö's state budget as savings. The words of these elderly people about their wrong medication can be invalidated if necessary, even with mental illnesses, which are the mental muscles of the Finnish judiciary, which cause chills even in the Italian mafia.
